Enhance your students’ experience

Discussion points

1. What makes animals special?
2. How can you love and care for animals and their habitats?
3. What actions can you take to help endangered species after your visit to the Zoo?

If you want to learn more about our animals, here are some talks that are held every day. Students are welcome to ask questions.

1. Experience the Seal Keeper Talk at 12:15pm daily, then have a ‘seal eye view’ as you walk through the Wild Sea precinct, watching our seals and penguins dive and swim under water.
2. Observe our elephants and their keepers as the elephants enjoy their daily wash and health check in the Elephant Barn at 11.00am.
3. Watch our gorillas forage for enrichment and food during the 12.30pm Gorilla Keeper Talk.

Thank you for visiting

Your visit today helps us continue our work fighting wildlife extinction. To help us carry on protecting local and international wildlife and providing the best care to the animals across our three Zoos, visit zoo.org.au/donate

Important information for teachers

1. Whether you have chosen a self-guided excursion or one of our Zoo education programs led by a qualified teacher, you are guaranteed to provide your students with a rich educational experience.
2. There are many interactive play-spaces throughout the Zoo, with opportunities for role play, parallel play and exploration.
3. Enjoy your snack and lunch under one of our pavilions or in the gardens, these snack areas are marked on the map using this symbol.

Follow the trails around the Zoo which will take you on a journey through a diverse range of habitats, including Australian bushland, Asian rainforest, African forest, coastal, wetlands and savanna.

Wominjeka

Wominjeka means ‘welcome’ in the language of the Wurundjeri people, the traditional owners of this land.
